

January 2016

Welcome to the new CADLHS newsletter

New for 2016, the Society will produce a monthly newsletter in full colour. You can choose to have this delivered by post if you don't have an email address, just let us know at the next meeting.

If you have an email address, just follow the instructions on the back page.

In this issue:

- This month's presentation, "The Derwent & Howden Dams" by Keith Blood
- The Society gets a new website & newsletter
- The Medieval Builders Wheel
- The next four months presentations
- An article on the Parish Church's Honour Book

these machines have survived to the present day and the Chesterfield wheel (tree-ring dated to 1360-1400) is unusual in being easily accessible in a museum rather than still high up in the tower of its church.

This type of windlass is known to have been used as early as Roman times, and the principle behind it (the changing of rotational motion into vertical motion) underlies later powered machinery: for example the equipment used to raise coal from underground workings.

A fine example of human ingenuity and engineering.

From the BBC's A History of the World

The Medieval Builders Wheel

This amazing object was used over 600 years ago in the building of Chesterfield's famous Crooked Spire church. If you've ever wondered how churches, cathedrals, and castles could be built without modern cranes, here's your answer. Heavy building materials were attached to a rope wound round the axle of the windlass, and then lifted by a person getting inside and treading the wheel around. The wheel was installed as high up on the building as possible and would be dismantled and moved up again as construction progressed. The medieval carpenters marked each piece of timber so they could easily take it apart and put it back together again. Very few of

New Monthly Feature

Museum Monthly

Every month throughout the year we will feature an item from Chesterfield Museum that is not on display to the general public.

Objects of curiosity, of style or rarity to our monthly feature.

January Meeting

THE DERWENT & HOWDEN DAMS by Keith Blood

Learn about the story of the construction of the Derwent and Howden Dams in this authoritative talk by Keith Blood.

The cost is free to members and £2.00 to visitors, refreshments are provided.

Rose Hill United Reform Church, (next to the Town Hall), on Tuesday January 19th at 7:30pm

The entrance is at the rear and there is ample free parking around the Town Hall after 6.00pm

Chesterfield Parish Church Honour Book

Issued in 1920 it gives details of some of the young men associated with Chesterfield Parish Church who fought during World War One. It gives the details not only of the young men who gave their lives but also of those who returned stating 'they were just as ready and willing to make the supreme sacrifice as those who died at the Front, and it is therefore fitting that without any distinction, a record should be kept of all those who responded to the call of duty.'

Backed in cloth covers the book was sold at Mr Newton Wrights Cavendish Street Chesterfield at a cost of 7s 6d

Pages include details of service and usually a photograph. Men who did not return are surrounded by a laurel wreath.

If you would like further details of men included in the book please contact CADLHS

Chesterfield & District Local History Society

New CADLHS Website

New for 2016, the Society now has its own website which will contain:

- Society news and details of forthcoming events and presentations
- Links to other history websites
- Videos on historical subjects
- Details of other local history groups
- The Society's History Papers
- Details of the Society's Offers and Membership

If you have any suggestions for items on the site, please email them to:
